

# Introduction to Programming & Tools

## Languages

## Tools

### ♥ Editors...

- where you write code + debug.
- you may run the code too!

e.g. VSCode Atom

### ♥ Browsers...

- run your code on web
- view visual elements
- use DevTools to inspect + debug

e.g. Edge, Chrome, Firefox

### ♥ Command Line Tools...

Send commands (lines of text) to execute tasks

Less graphical option

e.g. PowerShell Terminal Bash

### ♥ Docs...

- where you learn

e.g.

- Mozilla Developer Network
- Frontend Masters
